13th March 2020

Dear Parents and Carers

As a school we are taking the situation regarding Coronavirus (Covid-19) very seriously and are continuing to follow advice from Public Health Wales.

The school has not been advised to close at this time and is operating as normal. In line with Government advice, please can we ask any children that have a persistent cough or fever to self-isolate for 7 days. This is the advice being shared with staff too. Please inform the school if you are self-isolating either by email or telephone message so we can update our records accordingly. Also, if any family member or close contact has a confirmed diagnosis of Covid-19 please let us know.

Hand washing is of the utmost importance and we are constantly encouraging the children to wash their hands regularly.

The school has focused the cleaning regime in-line with guidance and we are grateful to our site manager and cleaning staff for all the additional work they are doing.

We are monitoring the situation with regards to school trips and sporting activities and parents will be informed of any changes to these.

In the event of school closure, staff are busy preparing to provide work for your child if the school needs to close for any length of time. Work will be shared with you via Google Classroom, Seesaw or email.

Please refer to : <https://phw.nhs.wales/topics/latest-information-on-novel-coronavirus-covid-19/what-to-do-if-you-have-symptoms-of-coronavirus/>

We all understand this is a very difficult and ever changing situation. We will do our best to communicate with you as quickly as possible in the event of changes. We appreciate your support at this time.

Yours sincerely

Mrs C Jackson
Head teacher
